IMPORTANT INFORMATION

This Annual Report has been prepared for investors in those countries, where the funds are registered with the respective Financial Services Authority.

All information is based on figures and information as of 31 December 2022. Except otherwise stated, the information in this report is produced by SKAGEN AS (SKAGEN). SKAGEN makes reservations regarding possible errors and omissions and does not assume responsibility for direct or indirect loss or expenses incurred through use or understanding of this report.

SKAGEN is a fund management company authorised by the Norwegian supervisory authority, Finanstilsynet, for the management of UCITS under the Norwegian Act on Securities Funds. SKAGEN is part of the Storebrand Group. Storebrand Asset Management AS owns 100% of SKAGEN.

Historical returns are no guarantee for future returns. Future returns will depend, inter alia, on market developments, the fund manager's skills, the fund's risk profile and subscription and management fees. The return may become negative as a result of negative price developments. Statements reflect the portfolio managers' viewpoint at a given time, and this viewpoint may be changed without notice. Employees of SKAGEN AS may own securities in companies mentioned in the presentation or included in a fund's portfolio.

Future fund performance is subject to taxation which depends on the personal situation of each investor, and which may change in the future. The tax treatment of the gains and losses made by the investor and distributions received by the investor depend on the individual circumstances of each investor and may imply the payment of additional taxes. Before any investment is made in the Fund, investors are urged to consult with their tax advisor for a complete understanding of the tax regime, which is applicable to their individual case.

No offer to purchase units can be made or accepted prior to receipt by the offeree of the Funds' prospectuses and PRIIPS KID and the completion of all appropriate documentation.

Please refer to the funds' prospectuses and PRIIPS KIDs available in Danish, Swedish, Dutch, English, French, German and Icelandic at www.skagenfunds.com as well as the UCITS KIIDs for the products registered in the UK and Norway, before making any final investment decision. Subscription is made in fund units and not directly in shares or other securities.

Investors' rights to complain and certain information on redress mechanisms are made available to investors pursuant to our complaints handling policy and procedure. The summary of investor rights in English is available here: <https://www.skagenfunds.com/contact/investor-rights/>

For further information about sustainability-related aspects of the Fund, including the sustainability disclosure summary in English, please refer to: <https://www.skagenfunds.com/sustainability/sustainable-investing/>

Periodic reporting for the funds in this Annual Report according to the requirements of the Sustainable Finance Disclosure Regulation (SFDR), is available on request.

BOARD OF DIRECTORS' REPORT FOR SKAGEN'S SECURITY FUNDS 2022

At the end of 2022, SKAGEN AS (SKAGEN) managed combined assets of NOK 63.4 billion divided between five equity funds, two fixed income funds and five fund-of-funds in addition to mirror funds.

SKAGEN's equity funds

At the end of 2022, SKAGEN managed the equity funds SKAGEN Vekst, SKAGEN Global, SKAGEN Kon-Tiki, SKAGEN m2 and SKAGEN Focus. During a roller-coaster year in which stock markets delivered their worst annual performance since the 2008 financial crisis, three out of five of SKAGEN's equity funds outperformed their respective benchmarks. All of the equity funds were ahead of benchmark over either a three or five-year rolling return period.

SKAGEN Kon-Tiki outperformed its benchmark over the year, falling 8.7% in NOK versus a loss of 10.7% for the MSCI Emerging Market Index. Developing markets were challenged for much of 2022 by China's strict COVID restrictions and a strengthening US dollar, both of which reversed in the final quarter.

SKAGEN Focus fell 7.0% in NOK for 2022 but outperformed the MSCI All Country World Index (-8.8%) with the fund delivering particularly strong fourth quarter returns, both in absolute and relative terms.

For the full year of 2022, SKAGEN Vekst significantly outperformed the overall market, for the second year in a row. While the fund fell 3.4% in NOK, it was significantly ahead of the benchmark index which lost 10.1%.

SKAGEN Global underperformed the MSCI AC World Index during 2022, losing 14.5% in NOK versus a drop of 8.8% for the index, despite most of its holdings delivering solid underlying results during the year. The fund's relative performance, which was negatively impacted by having no exposure to the strongly performing energy and utility sectors, was particularly weak in the first quarter. Indeed, SKAGEN Global outperformed the index over the subsequent nine-month period but it was not enough to make up for the relative losses at the start of the year.

SKAGEN m2 delivered NOK losses of 19.9% in 2022 versus a drop of 16.7% for the MSCI All Country World Index Real Estate IMI over the same period as the

invasion of Ukraine, persistently high inflation, rising interest rates and the prospect of recession in many advanced economies created headwinds for real estate assets. All major global listed property markets ended the year in negative territory. The challenges also highlight the importance of diversification both in terms of geography, but also sub-segments. SKAGEN m2 was held up by its holdings outside of Europe and also due to its focus on resilient and defensive segments and companies.

At the end of the year, SKAGEN managed total assets of NOK 58.6 billion in equity funds, down from NOK 68.6 billion at the end of 2021.

SKAGEN's fixed income funds

At the end of the year, SKAGEN managed total assets of NOK 4.8 billion in fixed income funds, down from NOK 5.2 billion at the end of 2021. These assets are

divided between the bond fund SKAGEN Avkastning and the money market fund SKAGEN Høyrente. SKAGEN Avkastning lagged its benchmark index slightly, while SKAGEN Høyrente generated positive risk-adjusted returns slightly ahead of its benchmark index.

SKAGEN's fund-of-funds

SKAGEN manages five fund-of-funds through the savings profile SKAGEN Select. At the end of the year, these funds managed combined assets of around NOK 1.9 billion. Four of five SKAGEN Select funds beat their respective benchmark indices.

In addition, SKAGEN holds NOK 3.4 billion in third party funds and cash on behalf of clients within the equity savings account (ASK) umbrella.

Fund changes in 2022

At the beginning of March 2022, SKAGEN

RETURNS 2022 (IN NOK) AS OF 31 DECEMBER 2022

decided to freeze all Russian investments in its funds and divest from Russia due to the country's invasion of Ukraine. This action aligned with the Storebrand Group decision to exclude Russian companies and government bonds from its investment universe. The decision was based on Russia's human rights violations, the imposition of sanctions from the international community and the Norwegian government's decision that Norges Bank Investment Management would divest from Russia. The following investments have been excluded:

- Russian government bonds
- Russian state-controlled enterprises
- Companies contributing directly or indirectly to the invasion of Ukraine
- Companies subject to EU and UN sanctions as a result of the conflict
- All Russian companies excluded by the Norwegian Oil Fund

SKAGEN's Russian exposure was limited to equity investments in two funds, SKAGEN Kon-Tiki and SKAGEN Vekst. At the point of impact on 23 February 2022, SKAGEN Kon-Tiki's exposure was 7.7% of NAV invested across five holdings and SKAGEN Vekst's was 3.5% of NAV invested across three positions. SKAGEN has no exposure to Russian government bonds in its funds.

Also in March 2022, portfolio manager of SKAGEN Vekst Alexander Stensrud decided to leave SKAGEN to manage his personal portfolio. Lead portfolio manager Søren Milo Christensen continues to run the fund, supported by the rest of the seasoned investment team. In November 2022, Christensen was joined by Sondre Solvoll Bakketun on the SKAGEN Vekst portfolio team.

As of 1 September 2022, a change was

made to the investment mandate of the fixed income fund SKAGEN Avkastning. In addition, Storebrand Asset Management (SAM) took over responsibility for the portfolio management of the fund. Following the change in mandate, the fund's portfolio now consists primarily of Norwegian and Nordic companies. The fund remains flexible with up to 25% exposure to bonds with credit quality BB+ or lower (high yield). As a result, both the risk and the expected return have increased somewhat. Unit holders in the fund have benefited from a reduced fixed management fee from 0.5% to 0.4%. The fund's benchmark was also changed to a combined index consisting of the NBP Norwegian RM3 Floating Rate Index NOK (92%) and the NBP Norwegian HY Aggregated Index NOK Hedged (8%) to reflect this change in mandate.

SKAGEN Avkastning is now managed by portfolio managers Ola Bjerkestrand Moe and Per Inge B. Heggen who have been with Storebrand Asset Management for six and twelve years, respectively. SKAGEN Avkastning remains a standalone fund under the SKAGEN brand.

Effective 28 October 2022, SKAGEN closed its global bond fund SKAGEN Tellus. SKAGEN Tellus was established in September 2006, offering investment in a portfolio of bonds and certificates issued or guaranteed by governments from around the world. SKAGEN Tellus had not attracted sufficient assets in recent years as the mandate proved less attractive to clients and the fund appeared to have limited prospects of reaching a sustainable size. SKAGEN therefore believed that closing the fund was in the best long-term interests of clients. The portfolio manager of SKAGEN Tellus, Sondre Solvoll Bakketun,

has remained within the SKAGEN portfolio team and joined SKAGEN Vekst as portfolio manager in November 2022.

As of the end of 2022, SKAGEN has offices in Norway, Sweden, Denmark, the UK and Germany and also permission to market its funds in Finland, Iceland, the Netherlands Luxembourg, Ireland, France, Belgium and the Faroe Islands. Unit holders are divided between retail clients (38%), distribution clients (50%) and institutional clients (12%).

Environmental, social and governance (ESG) factors

SKAGEN is a highly active manager, both in terms of how it invests and its approach to engaging with companies to promote sustainable operations.

In 2022, SKAGEN engaged with eight separate companies on eight different ESG cases. The engagement level is lower than 2021 where SKAGEN engaged with 21 separate companies on 25 different ESG cases. This is largely due to the investment made in a more fully documented sustainability process as part of the incoming Sustainable Finance Disclosure Regulation (SFDR).

Environment-related engagements made up the largest category of ESG dialogues in 2022, with the focus being on transition pathways and decarbonization. Environment-related engagements made up 62.5% of all ESG engagements during 2022. The engagement activity mirrors global investment activity, where engagement dialogue was held with companies in Asia, North America, and Europe.

Governance-related ESG engagements made up 25% of dialogues in 2022, with the focus being on topics that are generally of importance to minority shareholders.

These were board structure related, for example, proposing increased independence and diversity.

Lastly, multi-category dialogues are becoming a more central feature of SKAGEN's engagement dialogue with companies. These dialogues are more holistic and span the full range of ESG topics. These dialogues are sometimes also multi-tiered in the sense that SKAGEN will not only engage with the company but also with third parties e.g., ESG data providers. There are occasions where SKAGEN, as a value investor with small and mid-cap exposure, has the opportunity to offer such companies guidance and recommendations on how to improve ESG disclosure scores towards data providers and to the market more broadly.

SKAGEN believes in exercising its rights as shareholders. Proxy voting gives the portfolio managers the opportunity to vote without being physically present at meetings. As active investors SKAGEN feels that it is important to vote to address concerns and influence companies in a direction deemed to be sustainable.

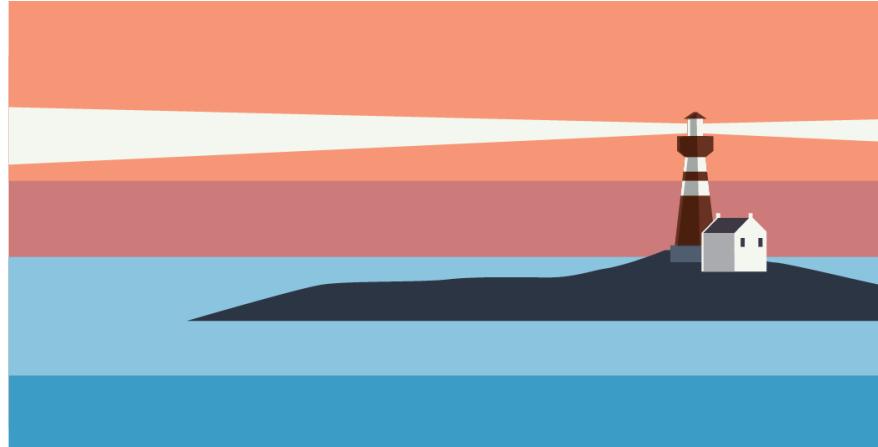

In 2022, there were 245 voteable meetings at SKAGEN's portfolio companies, with 2,894 voteable items on the agenda. SKAGEN voted on 99.5% of the items. Votes were cast in line with management recommendations 93% of time, while 7% of the time SKAGEN voted against management recommendations on one or more items on the agenda.

Cases in which SKAGEN voted against management were typically related to:

- Insufficient information ahead of meeting
- Quality of the board and its members, including diversity of board members
- Anti-takeover mechanisms
- Needless or unfair changes in capital structure
- Excessive executive compensation
- Insufficient disclosure proposals related to climate change
- Insufficient disclosure proposals related to human rights
- Insufficient disclosure proposals related to environmental harm, such as deforestation, plastics, etc.

Information about voting is published on the SKAGEN website. For further information about the company's work with ESG throughout 2022, please read SKAGEN's Annual Sustainability Report.

In 2022, SKAGEN continued the implementation of the Sustainable Finance Disclosure Regulation (SFDR); all of SKAGEN's

equity funds are categorised as Article 8 under the EU regulation. By the end of the year, SKAGEN had received visas and approved prospectuses for the Level II SFDR regime from the CSSF. Implementation of SFDR in Norway has been delayed by one year relative to the EU, but SKAGEN will nonetheless seek to implement and execute SFDR compliance for its Norwegian domiciled products on an ongoing basis in 2023.

Market review

After a rollercoaster year, stock markets ended 2022 delivering their worst annual performance since the 2008 financial crisis as rising inflation and geopolitical tensions combined with deteriorating economic conditions to push global equities down 18%. This ended three consecutive years of double-digit returns, with any hopes of the post pandemic bull run continuing dashed by rapidly rising interest rates and slowing growth.

There were few places for investors to escape the losses with most international stock markets posting negative returns for the year. Developed markets (-18%) fared slightly better than emerging ones (-20%), which were dragged lower by China (-24%) and notably Russia (-100%)¹.

With valuations looking stretched at the start of the year, central bank tightening and the end of zero interest rates inevitably hit growth stocks hardest as sky high price tags provided little margin of safety against the market sell-off. Telecom (-35%) and technology (-31%) sectors were among the biggest losers while the deteriorating economic outlook saw similar drawdowns across consumer discretionary (-32%) and real estate (-24%).

Energy (+35%) was the only sector to deliver positive returns for the year, cushioning markets like Norway and boosting pockets of Latin and South America. This

also helped value (-7%) to significantly outperform growth (-28%), while the resurgence of 'brown' stocks presented challenges for fossil-free portfolios and those containing greener, more growth-orientated investments³.

Market outlook

Investors' attention in 2023 is already shifting from inflation to recession and there are likely to be further waves of positive and negative sentiment as the economic picture and its impact on company earnings become clearer. Around two in three economists currently expect the US economy to enter recession this year⁴, while many believe that parts of the eurozone and the UK may already have succumbed.

While equities look set to remain volatile in the short-term, markets tend to find their feet once recession is confirmed and enter a new cycle of positive returns. Political stability will also help with 2023 expected to be the first year this century without major elections in G7 countries, although there remain obvious geopolitical tensions with the Russia-Ukraine conflict and friction between China and Taiwan.

Valuations offer another source of encouragement for equity investors. Last year's widespread drawdown means markets globally now trade below 30-year averages on an earnings basis, with historic discounts widest in emerging markets and Europe, notably in the UK. US equities still trade above long-term average P/E valuations and are the exception⁵.

This dispersion in valuations is one reason why a growing number of commentators believe the investment environment is becoming increasingly supportive for stock pickers to outperform. With markets no longer supported by quantitative easing and higher interest rates meaning capital has a cost, investors need greater focus on company fundamentals to separate the

⁵ Source: J.P. Morgan. Forward P/Es for MSCI indices

winners from the losers.

Profit margins will also come under increasing pressure as we enter recession and understanding the quality of management teams and the drivers of business success (or failure) will become even more important. Longer-term, SKAGEN expects value companies to outperform, as well as those best equipped to meet or contribute towards the green transition.

Another feature of 2023 will be greater focus by international regulators on sustainability, particularly with regard to how investment products are marketed, alongside growing client demand for more detailed ESG reporting and data. SKAGEN is well-placed to meet these challenges given its measured approach to sustainability and long history of integrating ESG into the investment process.

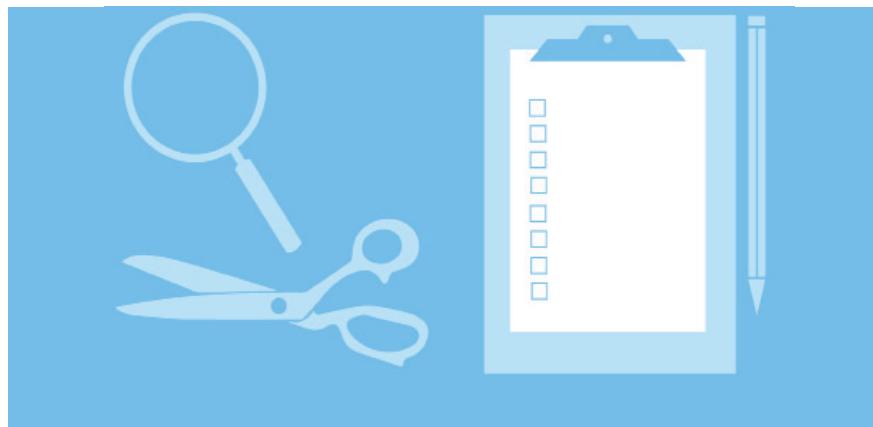

After balance sheet date the developing banking crisis has impacted the financial markets and potentially increased uncertainty; however, there has been no direct impact on the current fund holdings per se.

Risk management in SKAGEN's mutual funds

Investing in mutual funds entails risk related to future value development. Investors may therefore receive higher or lower returns than expected, and may also make a loss on investments. Nevertheless, a general characteristic of mutual funds is that risk is diversified across many different investments in different sectors and geographical regions. This diversification is expected to benefit clients over time and their returns should be higher relative to the risk of buying single stocks or bonds.

SKAGEN monitors and measures risk in the mutual funds in accordance with Norwegian laws and regulations. All of SKAGEN's funds have risk profiles approved by the Board. The Board and the Managing Director regularly receive risk reviews from SKAGEN's independent risk management function.

SKAGEN's mutual funds are also exposed to liquidity risk, i.e., the risk that the funds' investments cannot be converted to cash within an expected timeframe or at an expected price. The risk is limited by monitoring the volumes sold, having an extensive counterparty network, as well as the possibility to trade outside the market. In addition, certain cash reserves are maintained in the funds

as well as a loan facility in order to meet large client redemptions.

SKAGEN does not hedge currency exposure in the equity funds. Currency risk is integrated in the investment analysis of each portfolio holding and evaluated along with all other risk factors. SKAGEN seeks to minimise risks through portfolio diversification.

The fixed income funds' investments are based on analyses of each issuer's creditworthiness and the economic, macro political and institutional circumstances of the country in which the bond is issued. Following its change in mandate, SKAGEN Avkastning may invest in loans with credit quality BB+ or lower (high yield). The lowest permitted credit quality for an individual investment is B- at the time of investment. Such loans have a high expected return, but also higher credit risk. Up to 30 percent of the fund may be invested in subordinated loan capital, which carries a higher risk than ordinary bonds. Some of the fund's investments may at times have low tradability, which may also increase the risk of falling prices. To reduce risk, investments are divided between many issuers. Counterparty risk is reduced by seeking delivery on payment and by monitoring brokers' credit ratings and accounts.

Internal control and compliance

Fund management also entails operational risk, typically associated with inadequate or failing internal processes or systems, human error or external events. Operational risk is managed by, amongst other things, maintaining focus on good processes, routines and systems, continuous training of employees, communication measures as well as updating and drawing lessons from event registers. Incidents are evaluated continuously, with an increased focus once a year in an internal control pro-

cess involving the managers responsible for all areas of activity.

SKAGEN outsources certain common functions and tasks to other entities within the Storebrand Group. The outsourcing covers management of the fixed income funds SKAGEN Høyrente and SKAGEN Avkastning, IT development and operations, securities settlement, fund accounting, calculation of net asset value, unit holder settlement and unit holder register for SKAGEN's funds, and sales and service towards professional clients in Norway, Sweden and Denmark. SKAGEN remains responsible for risk management and internal control of all outsourced activities.

In line with relevant regulation and the Storebrand Group policy, SKAGEN has an independent Compliance Officer and Risk Officer. These two functions work independently of SKAGEN's main reporting lines, reporting directly to the Board in addition to the CEO, to comply with regulatory requirements. Both functions also report to the Storebrand Group CRO, and are included in the Group's compliance and risk forums.

SKAGEN is also the appointed investment manager for the SKAGEN sub-funds and the global sub-distributor for all sub-funds within the Storebrand SICAV domiciled in Luxembourg.

Administrative conditions

The mutual funds have no employees. The company does not pollute the environment. All the mutual funds are managed by SKAGEN and have JP Morgan as their custodian. SKAGEN's head office is located in Stavanger, Norway.

Going concern

The Board confirms that the premise of the funds and the management company as going concerns continues to be fulfilled.

General notes 2022

NOTE 1: ACCOUNTING PRINCIPLES

All figures in NOK 1,000 unless otherwise stated.

The accounts for 2022 are prepared in accordance with the Norwegian accounting law and regulation for annual financial statements for securities funds.

Financial Instruments:

All financial instruments are valued at fair value. The valuation method will depend on the financial instruments' characteristics as well as the relevant market. In SAM, listed instruments will generally be valued using the last official price as well as the latest purchase and sales price distributed by the relevant stock exchange. The use of quoted prices is relevant for instruments where purchase and/or sales prices are quoted regularly by one or more brokerages. This primarily relates to bonds outside Norway. For Norwegian bonds, prices delivered by Nordic Bond Pricing will mainly be used. For funds, official NAV prices will be used where available. For financial instruments where it is not possible or desirable to use the above methods, theoretical models are used for calculating an assumed market value. This will typically apply for most OTC instruments as well as some illiquid bonds. Further information can be found in SAM's routine "Valuation principles for financial instruments".

Derivatives:

Derivatives can be used to reduce the funds' risk.

Realised gain and loss:

Upon realization of the investments, accounting gains and losses are calculated based on acquisition cost. Currency gains/losses that are not related to securities appear as other portfolio income/expenses.

Transaction costs:

Transaction costs for the purchase of securities (brokerage fees to brokers and other costs) are capitalized as a part of the cost price of the security and follow the realization principle.

Allocation to unit holders:

For fixed income funds, taxable profit, consisting of interest income, realized gain / loss and other income less management fees and transaction-driven costs, is distributed to unit holders as of 31 December.

All allocation to unit holders in fixed income funds is treated as profit allocation in accordance with the regulations pertaining to annual accounts for mutual funds.

Swing pricing:

SKAGEN employs swing pricing routines to prevent existing unit holders from being negatively impacted as a result of subscriptions and redemptions made by other unit holders in the fund. The value of the fund is adjusted by a swing factor on days when the fund has had a net subscription or redemption. The limit for adjusting the value of the fund is set at the level that net subscriptions or redemptions are expected to cause the fund to make portfolio adjustments that incur transaction costs, spread costs (the difference between the purchase and sale prices of underlying securities), and currency costs. If the fund has a net subscription beyond this limit, the value of the fund is adjusted upwards or downwards if the fund has had a net redemption above this limit. The swing factor is calculated based on average historical costs, and evaluated quarterly.

Impact of Russian invasion of Ukraine:

Following the Russian invasion of Ukraine, SKAGEN decided to freeze Russian investments and divest from the country, in line with the rest of the Storebrand Group. The decision followed similar action by Norges Bank Investment Management to exclude Russian investments at the behest of the Norwegian government. SKAGEN's funds with direct Russia exposure are SKAGEN Kon-Tiki and SKAGEN Vekst which suffered a near total drawdown in their Russian holdings that accounted for 8.7% and 4.5% of their portfolios respectively at the start of February 2022. As of 31.12.2022, all of the Russian stocks continued to be priced at zero, with the exception of the Russian-listed retailer X5. During the latter part of the year, there were larger off-market transactions made in the X5 share (ticker: FIVE LI) reported on the London Stock Exchange. Consequently, Storebrand Asset Management's independent pricing team adjusted their fair value assessment of the stock based on the reported off-market transactions and these are reflected in the fund's NAV with effect from 31.10.22.

Remuneration Scheme:

The company's remuneration scheme is determined by the company's Board of Directors, and is reviewed and checked by the company's internal auditor on an annual basis.

The company's remuneration scheme is designed to promote good and efficient risk management and ensure that management acts in accordance with the investment mandates of the mutual funds managed and prevent risk taking that is incompatible with the funds' investment strategy. Furthermore, the scheme must ensure accountability and a long-term perspective. All SKAGEN AS employees have a fixed remuneration and the possibility of variable remuneration. Variable remuneration paid in 2023 was earned based on the company's operating profit in 2022. A fixed share is shared among a group of employees (partners) while the remaining share is distributed on a discretionary basis. All employees may also receive a discretionary variable remuneration. Variable remuneration for compliance and risk managers is not based on the company's operating profit, but on the basis of individual assessment. The company's management team, portfolio managers and the company's compliance and control function were in the financial year 2022 (payment year 2023) subject to special requirements for the withholding of variable allowance. SKAGEN AS withholds 50% of the variable remuneration with payment in three equal parts over the following three years. Withheld bonus is invested in the company's securities funds. 54 of the company's employees are subject to the remuneration scheme's requirement for withheld variable remuneration.

Category	No. of employees	Fixed remuneration	Variable remuneration	Total in 2022
A: Leader group incl CIO	7	12483	17695	30177
B: Portfolio managers, risk, compliance and legal	17	25240	91079	116319
C: Employees with directsales duties	30	29427	13700	43127
Total	54	67150	122474	189624

NOTE 2: PORTFOLIO OVERVIEW

See pages 18-31 for the portfolio overview.

SKAGEN Vekst Note 4, 5, 6, 7, 8, 9 and 10

NOTE 4: CUSTODIAN COSTS, BROKER'S FEES AND OTHER FEES

Transaction costs for the purchase of securities (brokerage to brokers) are capitalized as part of the cost price for the security and follow the realization principle.

Transaction costs:

2022	2021
479	818

NOTE 5: TURNOVER RATE

The turnover rate is calculated as the minimum of the year's purchases and sales, divided by average total assets.

Turnover rate:

2022	2021
0,22	0,31

NOTE 6: MANAGEMENT FEE AND COMMISSION

The management fee is calculated in percent of the daily assets under management.

Unit class	Management fee p.a.	Currency
SKAGENVekst A	1,00%	NOK
SKAGENVekst B	0,80%	NOK
SKAGENVekst C	0,60%	NOK

In addition, unit classes A and B are charged a variable management fee of 1/10 of the return above 6 percent p.a. measured in Norwegian kroner, as long as the unit value on 31.12 is more than the unit value the last time the fund was charged a variable management fee (high watermark). Unit class C is charged a variable management fee of 1/10 of the better value development in the unit value than the balanced and continually rebalanced index composed of the MSCI Nordic Countries IMI Index and the MSCI All Country World Index ex Nordic Countries (Daily Total Return Net \$ measured in Norwegian kroner). The variable management fee in class C is charged/calculated only if the accumulated relative value development from the previous charge/calculation up to and including 31 December is greater than zero.

NOTE 7: NUMBER OF UNITS (IN WHOLE FIGURES)

Unit class	31.12.2022	31.12.2021	31.12.2020
Number of units	SKAGENVekst A	2230346	2317496
Number of units	SKAGENVekst B	91769	70107
Number of units	SKAGENVekst C	72943	71556
Redemption price	SKAGENVekst A	3 561	3 685
Redemption price	SKAGENVekst B	3 625	3 744
Redemption price	SKAGENVekst C	3 791	3 908

NOTE 8: TAX

Calculation basis - tax payable	2022	2021	Change

NOTE 9:

Companies in the Storebrand Group have units in the fund corresponding to 1% of total assets.

NOTE 10: KEY FIGURES

Active share compares the fund's investments with those of the benchmark index and expresses how much of the fund's portfolio deviates from the fund's benchmark index. The calculation is made by summing up the absolute difference between the weight of assets in the fund against the weight of assets in the benchmark index. The measurement of the key figure is based on the issuer level and portfolio composition as of 31.12.2022. The cash balance is considered an asset in line with other assets in the fund.

	2022	2021
Tracking error	8,66%	7,22%
Active share	81,83%	86,05%

SKAGEN Focus Note 4, 5, 6, 7, 8, 9 and 10**NOTE 4: CUSTODIAN COSTS, BROKER'S FEES AND OTHER FEES**

Transaction costs for the purchase of securities (brokerage to brokers) are capitalized as part of the cost price for the security and follow the realization principle.

Transaction costs:

2022	2021
917	873

NOTE 5: TURNOVER RATE

The turnover rate is calculated as the minimum of the year's purchases and sales, divided by average total assets.

Turnover rate:

2022	2021
0,94	1,03

NOTE 6: MANAGEMENT FEE AND COMMISSION

The management fee is calculated in percent of the daily assets under management.

Unit class	Management fee p.a.	Currency
SKAGEN Focus A	1,60%	NOK
SKAGEN Focus B	1,30%	NOK
SKAGEN Focus C	1,00%	NOK
SKAGEN Focus D	1,60%	NOK

In addition, the four unit classes are charged a variable management fee of 1/10 better value development in the unit value than the benchmark index MSCI All Country World Daily Total Return Net \$ measured in Norwegian kroner. The variable management fee is calculated daily and charged yearly on 31 December for all four unit classes. In the event of poorer value development in the unit value than the benchmark index, 10 percent of the underperformance is deducted from the fixed management fee. The total management fee therefore has an upper and a lower limit, so the combined fee may not exceed 3.2 percent p.a. and may not be less than 0.8 percent p.a. of the average assets under management in unit classes A and C. In unit class B the corresponding upper limit is 2.9 percent p.a. and lower limit is 0.5 percent p.a. For unit class D the corresponding upper limit is 3.2 percent p.a. and lower limit is 0 percent p.a.

NOTE 6: MANAGEMENT FEE AND COMMISSION

The management fee is calculated in percent of the daily assets under management.

Unit class	Management fee p.a.	Currency
SKAGEN m ² A	1,50%	NOK
SKAGEN m ² B	1,20%	NOK
SKAGEN m ² C	1,50%	NOK

In addition all three unit classes are charged a variable management fee of 1/10 better value development in the unit value than the benchmark index, the MSCI ACWI Real Estate IMI Net Total Return Index USD measured in Norwegian kroner. In the event of poorer value development in the unit value than the benchmark index, 10 percent of the underperformance is deducted from the fixed management fee in classes A and B. The total management fee therefore has an upper and a lower limit such that the combined fee may not exceed 3 percent p.a. and may not be lower than 0,75 percent p.a. of the average assets under management in unit class A. In unit class B, the corresponding upper limit is 2,7 percent p.a. and lower limit is 0,45 percent p.a. The combined management fee in unit class C may not exceed 3 percent p.a. of the average annual assets under management. For unit class C, the variable management fee for a given year can only be charged if the accumulated relative value development between the fund and MSCI ACWI Real Estate IMI Net total return index USD measured in Norwegian kroner, from the last charge to the end of the year, is greater than zero (relative high water mark).

NOTE 9: KEY FIGURES

Active share compares the fund's investments with those of the benchmark index and expresses how much of the fund's portfolio deviates from the fund's benchmark index. The calculation is made by summing up the absolute difference between the weight of assets in the fund against the weight of assets in the benchmark index. The measurement of the key figure is based on the issuer level and portfolio composition as of 31.12.2022. The cash balance is considered an asset in line with other assets in the fund.

	2022	2021
Tracking error	7,63%	7,25%
Active share	88,79%	87,44%

SKAGEN Select 15 Note 4, 5, 6, 7, 8 and 9**NOTE 4: CUSTODIAN COSTS, BROKER'S FEES AND OTHER FEES**

Transaction costs for the purchase of securities (brokerage to brokers) are capitalized as part of the cost price for the security and follow the realization principle.

Transaction costs:

2022	2021
-	4

NOTE 5: TURNOVER RATE

The turnover rate is calculated as the minimum of the year's purchases and sales, divided by average total assets.

Turnover rate:

2022	2021
-0,15	0,19

NOTE 6: MANAGEMENT FEE AND COMMISSION

The management fee is calculated in percent of the daily assets under management.

Unit class	Management fee p.a.	Currency
SKAGEN Select 15	0,10%	NOK

The management fee that is charged in the underlying funds will come in addition. If all the underlying funds deliver a return that is in line with their respective benchmark indexes, the total annual cost is expected to be 0.55%. The actual total annual cost may be higher or lower than this, depending on the underlying funds' relative performance from year to year. The annualised cost for 2022 was 0.57 %. The total management fee in the fund and underlying funds may not exceed 4% per year.

To the Board of Directors of the asset management company Skagen AS

Independent Auditor's Report

Opinion

We have audited the financial statements of the following funds (the Funds) managed by Skagen AS:

Org.nr	Fond
979876084	SKAGEN Avkastning
915294294	SKAGEN Focus
979876106	SKAGEN Global
984636237	SKAGEN Global II
984636210	SKAGEN Global III
979876076	SKAGEN Høyrente
984305141	SKAGEN Kon-Tiki
998738873	SKAGEN m2
918534741	SKAGEN Select 100
918534784	SKAGEN Select 15
918534687	SKAGEN Select 30
818534752	SKAGEN Select 60
918534814	SKAGEN Select 80
879876052	SKAGEN Vekst

The financial statements comprise of the balance sheet as of 31 December 2022, the income statement for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion

- the financial statements comply with applicable statutory requirements, and
- the financial statements give a true and fair view of the financial position of the Company as at 31 December 2022, and its financial performance for the year then ended in accordance with the Norwegian Accounting Act and accounting standards and practices generally accepted in Norway.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company as required by relevant laws and regulations in Norway and the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

PricewaterhouseCoopers AS, Dronning Eufemias gate 71, Postboks 748 Sentrum, NO-0106 Oslo

Statsautoriserte revisorer, medlemmer av Den norske Revisorforening og autorisert regnskapsførerselskap

The Board of Directors and the Managing Director (management) of the asset management company are responsible for the information in the Board of Directors' report. The other information comprises information in the annual report, but does not include the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the information in the Board of Directors' report.

In connection with our audit of the financial statements, our responsibility is to read the Board of Directors' report. The purpose is to consider if there is material inconsistency between the Board of Directors' report and the financial statements or our knowledge obtained in the audit, or whether the Board of Directors' report otherwise appears to be materially misstated. We are required to report if there is a material misstatement in the Board of Directors' report. We have nothing to report in this regard.

Based on our knowledge obtained in the audit, it is our opinion that the Board of Directors' report

- is consistent with the financial statements and
- contains the information required by applicable statutory requirements.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Norwegian Accounting Act and accounting standards and practices generally accepted in Norway, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern. The financial statements use the going concern basis of accounting insofar as it is not likely that the enterprise will cease operations.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

For further description of Auditor's Responsibilities for the Audit of the Financial Statements reference is made to: <https://revisorforeningen.no/revisjonsberetninger>
