ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: SKAGEN KON-TIKI Legal entity identifier: 54930000ERXXQ9XSSJ70

Environmental and/or social characteristics

Sustainable investment: means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow

good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?		
Yes	●● × No	
It made sustainable investments with an environmental objective: % in economic activities that qualify as environmentally sustainable under the	It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of % of sustainable investments	
EU Taxonomy in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy	
It made sustainable investments with a social objective:%	with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	
	with a social objective It promotes E/S characteristics, but did not make any sustainable investments	

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristic promoted by this Fund is the application of an ESG integration strategy.

The Investment Manager's ESG integration strategy consists of four pillars to execute the investment selection process and exercise of ownership rights. The first pillar of the strategy is negative screening and control of potential investments, the second is an enhanced due diligence of companies in high emitting industries, the third is ESG integration through dedicated factsheets, whilst the fourth and final pillar is active ownership.

The ESG Integration strategy is an entirely incorporated process within the Funds investments. Throughout the year, all of the four binding elements of the strategy are followed and further developed. As a result, the environmental and social characteristics promoted by this product were fully met.

How did the sustainability indicators perform?

The sustainability indicators of the Fund are all of the four pillars of binding elements in the ESG integration strategy. The sustainability indicators performed as following:

Pillar 1- Exclusion criterias and negative screening

As of 31 December 2024, 369 companies are on the exclusion list, and hence not investable for the Investment Manager.

During 2024, the fund performed pre investment screening on 16 potential investments.

The Fund is also subject to quarterly controls to ensure alignment with the exclusion criterias. Controls have been performed for Q1, Q2, Q3 and Q4 2024.

All current investments have been individually screened, analyzed and cleared to be in line with SKAGEN's sustainable investment policy.

Pillar 2- Enhanced due diligence of high-emitting companies.

During 2024, **all** of the investees that operate within high-emitting sectors where subject to enhanced due diligence. For the Fund, enhanced due diligence was performed for 16 companies during 2024. The enhanced due diligence is enshrined in the ESG factsheet documentation.

Pillar 3- ESG Factsheets

As of 31 December 2024, ESG factsheets have been completed for 40 / 40 investees in the fund, and traffic lights assigned.

Traffic light distribution for completed ESG factsheets:

Dark green: 2 number of companies Light green: 27 number of companies Grey: 1 number of companies Amber: 10 number of companies Red: 0 number of companies Black: 0 number of companies

Pillar 4- Active ownership

Engagement activities pertaining to the fund in 2024 consisted of 10 unique company engagements covering 10 unique engagement cases.

There were 54 voteable meetings in the Funds companies in 2024, with 527 voteable items on the agenda. The Fund voted on 96.77% of these items. Votes were cast in line with management recommendations 91.76% of the time, while 8.24% of votes were against management recommendations on one or more items on the agenda.

• ...and compared to previous periods?

Pillar 1 - Exclusion criterias and negative screening	Current Year - 2024	Prior Year - 2023
No. of companies excluded	369	337
No. of pre investment screenings	16	7

Pillar 2 - Enhanced due diligence of high-emitting companies	Current Year - 2024	Prior Year - 2023
Enhanced Due Diligence	16	17

Pillar 3 - ESG factsheets - traffic light distribution	Current Year - 2024	Prior Year - 2023
Dark green:	2	2
Light green:	27	21
Grey:	1	0
Amber:	10	17
Red:	0	0
Black:	0	0

Pillar 4 - Active Ownership	Current Year - 2024	Prior Year - 2023
Unique company engagements:	10	10
Unique engagement cases:	10	10
Voteable meetings:	54	64
Voteable items	527	632
% voted items	96.77	99.53

% votes cast in line with management	91.76	91.89
% votes against management	8.24	8.11

• What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

This product does not have a sustainable investment objective.

- How did the sustainable investments that the financial product partially made not cause significant
 harm to any environmental or social sustainable investment objective?
- I This product does not have a sustainable investment objective.
- I- How were the indicators for adverse impacts on sustainability factors taken into account?
 - This product does not have a sustainable investment objective.
- I Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and
 I the UN Guiding Principles on Business and Human Rights?
- This product does not have a sustainable investment objective.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

1

How did this financial product consider principal adverse impacts on sustainability factors?

Throughout all pillars of the ESG integration strategy, company specific analysis is performed on the holdings of the Fund. Exclusion criteria screen away the most principled adverse impacts that are univestable for the Fund. Furthermore, material principal adverse indicators for every single investment case are analysed and assessed, and constitute an important contribution to the overall investment analysis. Subject to data availability and data quality, all principal adverse indicators considered material are tracked to identify postive and negative developments at security level, and can inform measures to manage and mitigate by the Fund.

What were the top investments of this financial product?

Laurant inventments	Sector	% As	% Assets	
Largest investments Sector	Sector	2024	2023	Country
Ping An Insurance Group	Financials	7.19	5.80	HK
Alibaba Group Holding Ltd	Consumer Discretionary	6.77	6.24	HK
Taiwan Semiconductor	Information Technology	4.84	2.62	TW
LG Electronics-PFD	Consumer Discretionary	4.29	4.61	KR
Samsung Electronics PFD	Information Technology	4.18	4.92	KR
Cnooc Ltd	Energy	3.91	5.65	HK
Prosus NV	Consumer Discretionary	3.80	3.10	NL
Naspers Ltd-N	Consumer Discretionary	3.76	3.17	ZA

Raizen SA	Consumer Discretionary	2.21	3.37	BR
China Mobile Ltd	Communication Services	2.20	2.19	HK

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01-01-2024 - 31-12-2024.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies
- capital expenditure
 (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

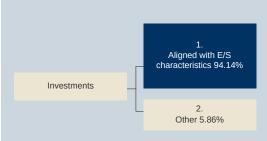

What was the proportion of sustainability-related investments?

0%. This product does not have a sustainable investment objective.

• What was the asset allocation?

In theory, all of the Fund's assets under management should be aligned with E/S characteristics as all companies that are selected and invested in by the Fund are subject to the ESG integration strategy. Residual capital in the Fund can however de-facto be categorized as 'other' due to cash position of the Fund. As of 31 December 2024, the asset allocation in the Fund was as following

#1 Aligned with E/S characteristics: :94.14% #2 Other :5.86%

#1

Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2

Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category #1A Sustainable covers sustainable investments with environmental or social objectives.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

• In which economic sectors were the investments made?

Sector/Industry code	Sector/Industry name	Sum
10	Energy	9.13%
101020	Oil, Gas & Consumable Fuels	9.13%
15	Materials	10.14%

*The Fund does not include sovereign bonds.

•	act invest in fossil gas and/or nuclear energy related activities that comply with
the EU Taxonomy ¹ ?	
Yes	
in fossil gas	in nuclear energy
⊠ No	

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-larbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective — see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Transitional activities are

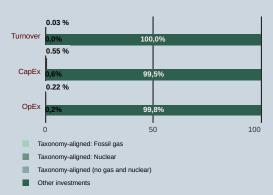

activities for which low-carbon alternatives are not yet available and among other have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

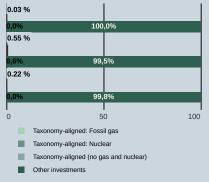

- turnover, reflects the "greenness" of investee companies today.
- capital expenditure (CapEx), shows the green investments made by investee companies, relevant for a transition to a green economy.
- operational expenditure (OpEx), reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy alignment of investments, including sovereign bonds*

2. Taxonomy alignment of investments, excluding sovereign bonds*

- * For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures
- . What was the share of investments made in transitional and enabling activities?

Transitional activites: 0.17%

Enabling activities: 0.12%

. How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The Fund does not have any intentions to invest in Taxonomy-aligned investments (including transitional and enabling activities) but it is not excluded that this may be the case due to unintented and residual reasons.

sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

This product does not have a sustainable investment objective.

What was the share of socially sustainable investments?

This product does not have a sustainable investment objective.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Residual capital in the Fund categorized as 'other' is due to cash position of the Fund.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

- · Screening and quarterly controls
- · Enhanced due diligence of all companies operating within "high-emitting" sectors.
- · Factsheet development
- · Completed factsheets for 100% of the Funds investees during 2024.
- · Voting and engagement dialogues
- · Training and development

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective.

How did this financial product perform compared to the reference benchmark?

The Fund is actively managed and uses a benchmark for performance comparison purposes. However, the fund does not specifically use a benchmark index to attain its environmental and social characteristics.
